Outdoor activities are offered with 7 premium hiking trails, the so-called "Traufgänge", which are around the campsite. Depending on the length and on the level of difficulty of the tour the trails either offer a recreation or sportive challenge, but they are always rich in wonderful views of the beauty of nature.

Points of interest

Sonnencamping Albstadt serves as an ideal basis for tours to the most rewarding cultural sights of this region, such as the fortress of Hohenzollern or the impressive castle of Sigmaringen.

In the past the Swabian Alb was noted for a strong textile industry. This led to the expansion of lots of factory outlets, among them the outlet city of Metzingen.

Our outlet guide offers information on more than 30 selected outlet stores for pasta, underwear, bike accessories or designer dresses in the neighbourhood of our campsite. At our reception you will get more information material and competent advice at any time!

Winter pleasures

Even in the cold season, the Swabian Mountains have much to offer.

In the neighbourhood of the campsite two premium hiking trails attract hikers and walkers.

Many well-groomed cross-country ski runs and six skiing lifts with flood-lighting promise a lot of winter fun on two planks – a small paradise in the middle of the Swabian Alb.

Our accommodations are all heated and therefore also suitable for winter holidays.
